FESLER KNOCKS IT OUT OF THE PARK WITH OBS DOOR PANELS

***FOUR-PANEL SET COVERS THE COMPLETE DOOR ON 1988-2000 OBS CREW CAB TRUCKS AND SUBURBANS***

PHOENIX, AZ, JULY 8, 2026 -- Fesler USA has released a complete four-panel fiberglass door panel set for 1988-2000 Chevy and GMC OBS crew cab trucks and Suburbans. The panels are hand laid in Phoenix with a smooth gel-coat finish and cover the entire factory door area front to rear.

WHAT THE PANELS ARE AND HOW THEY'RE BUILT

Each panel is hand laid fiberglass with a gel-coat surface, shipped ready for upholstery or paint. The full-coverage design eliminates the lower-door gaps and rot that show up on cut or modified OBS shells, and the set includes all four panels: front left, front right, rear left, and rear right.

The layout is optimized for power windows, with switch and lock positions intended to relocate to the center console. Door-mounted switches are possible with customer modification. Front and rear doors accept 6.5-inch speakers without cutting door metal when paired with the Fesler no-cut Morel speaker kit, which is available separately in standard, tweeter, or three-way configurations.

SPECS AT A GLANCE

- **Fitment.** 1988-2000 Chevy/GMC OBS crew cab trucks and Suburbans
- **Panels included.** Front left, front right, rear left, rear right
- **Material.** Hand laid fiberglass

- **Dash clearance note.** 1996 and newer stock dash may contact front panel edge; minor trimming provides clearance
- **Made in.** Phoenix, Arizona
- **Lead time.** Ships within 1 to 3 business days when in stock

WHY FESLER BUILT THIS SET

The OBS crew cab interior has been underserved for too long. These panels give builders a clean, consistent foundation across all four doors without hacking factory sheetmetal or hunting down used panels that are cracked and worn before they arrive.

“The OBS platform has a massive following and these trucks deserve a proper interior option that holds up and actually fits the way a builder expects.”

Chris Fesler

The OBS four-panel set is available now at shopfesler.com, where Fesler billet door handles and armrest kits designed to match the panels are also listed.
